

Tripping Daisy, One Through Four

Love makes it good to be free, well I'll take it shorter
Now if I had the time to well I'd make it longer
One makes it two to find the three to change
My four, it's over, now if I had the chance
I'd do it again and make you warmer than...

Surprise you make me get away slow

So you'll pull me back, you make me
Get away oh, and now you want me back

Love me through
Love me through
Love me through.....
Why you wanna wait til I stop?
