

Tripping Daisy, Our Drive To The Sun/Can A Man

Falling, but you never will fall down
You saw me
Now follow me
It reaches through the clouds but you never will come down
You saw me
Now follow me
And you know that you're leaving, so you slide to a form
Uncomfortable
And you know that you're leaving, so you try to avoid
And you know how it goes
Well I don't mind running along on our little drive to the sun
We will be real strong and we will go real high
And we will not ask why on our little drive to the sun
Cause I wanna be falling
But you never will fall down
You saw me
Now follow me
Can a man mark it?
His will to survive
Can a man mark it?
This wheel in the sky
Can a man mark it?
The way that he knows
Can a man mark it?
The world wants to know
Can a man mark it?
Of course he can
