

# Trisha Yearwood, Love Alone

It's been a long road, but we got here  
It wasn't easy, but it was true  
We found out through all the bad times  
It all comes down to me and you

We held the greatest expectations  
Only to find it was not to be  
All the dreams we left behind us  
Only serve to set us free

[Chorus:]  
We don't need no bag of silver  
We don't need no fields of gold  
Don't it make you high  
Make you want to fly  
Knowing we can live on love alone?

We made our break straight out of high school  
You went your way and I went mine  
Everything that we went looking for  
Was here inside us all the time

[Repeat chorus]

[Bridge:]  
We have shared every tear  
Through the years  
For all the laughter and the pain  
One thing remains

[Repeat chorus]
