

# Trisha Yearwood, The Chance I Take

Everyone Says you'll break my heart  
Put out the fire before it starts  
You'll string me along and then cut me loose  
But I don't care what they say about you

My heart's got a history  
Of letting love get the best of me  
'Cause I can't hide the way I feel  
When I'm fallin in love it's always head over heels

It's the chance I take  
It's the chance I take  
I bet it on this heart of mine  
I might even get lucky this time  
Let the chips fall where they may

I'm a fool for love it's the chance I take

Just when I say never again  
I'm throwin' caution to the wind  
Nothing ventured nothing gained  
The only way to win is to stay in the game

I've been on the looking end  
But I still wanna love again  
I sweep up the pieces when my heart breaks  
Put it back together it's the chance I take

I'm a fool for love it's the chance I take  
I'm a fool for love it's the chance I take
