

# Triumph, Be My Lover

I want to tell you  
A little story  
I want to whisper  
In your ear  
I wanna get  
Your engine running  
I wanna slip you into gear

I got a present in my pocket  
All I've gotta give  
A little present  
>From the Rocket  
All I've gotta give

Come on and be my lover  
I'll take you under cover  
Come on and be my lover  
All I'll be your lovin' man

You're got to feel it  
Deep inside girl

You got to take it  
When it comes

You'll never know  
Until you're tried girl  
Please don't stop  
What's just begun

I've got a burning in my body  
Baby I'm on fire  
I ain't asking  
Nothing naughty  
But won't you get me higher
