

Triumph, Be My Lover

I want to tell you
A little story
I want to whisper
In your ear
I wanna get
Your engine running
I wanna slip you into gear

I got a present in my pocket
All I've gotta give
A little present
>From the Rocket
All I've gotta give

Come on and be my lover
I'll take you under cover
Come on and be my lover
All I'll be your lovin' man

You're got to feel it
Deep inside girl

You got to take it
When it comes

You'll never know
Until you're tried girl
Please don't stop
What's just begun

I've got a burning in my body
Baby I'm on fire
I ain't asking
Nothing naughty
But won't you get me higher
