

Triumph, Child Of The City

Pretty picture in the mirror
Just an angel from the stars above
Causing such a sensation
Will she score on the streets of love

She's a movie queen in the making
A cinderella in waiting
Late in the night

CHORUS:
She's a child of the city
Dressed to thrill
She's got all the right moves
Child of the city, say you will

Temptation's gonna find ya
Ridin' high on a silver spoon
Street walking on the wild side
Bad boys howlin' at the moon

They're sayin' "Are you old enough
Are you willing"
As they bare their fangs for the killing
Late in the night

CHORUS

Little angel in a thin disguise
That devil woman can surely hypnotize

CHORUS
