

# Trivium, The Phalanx

Within the thrill  
Amidst the kill  
One against all  
Soon blood will spill  
We cannot wait to make your pain  
We are the burn inside your brain

Herding the weak to fire  
Scorching the fleeing liars  
Witness the dying saboteurs  
Carcasses washed upon the shores

Don't let this take me  
Split me wide open  
Rip me from the stars  
burn the brige  
Take the ash  
Scatter deceptiveness

We're the ones who led the way  
This path to hell and mystery  
And endless was  
A hollow cause  
When we all die,  
We'll see no gods!

Herding the weak to fire  
Scorching the fleeind liars  
Witness the dying saboteurs  
Carcassses washed upon the shores

Don't let this take me  
Split me wide open  
Rip me from the stars  
burn the brige  
Take the ash  
Scatter deceptiveness

We're the ones who led the way  
This path to hell and mystery  
And endless was  
A hollow cause  
When we all die,  
We'll see no gods!
