

Trnqvist Rebecka, Wander Where You Wander

(Trnqvist/Svenre)

Way back, all those men in my past,
used to bore me so fast
your kind was not to be found

Way back, you were there in my dreams,
in a blink it just seems
like fate has blessed you with me

And I will wander where you wander, I will be right where you are
and you will never turn you back on me, never go too far away
and let me wrap myself around you,
hold me in my arms forever more

Way back, well I kept my hopes high
didn't understand why
what took you oh so long

And I will read you all poems,
I will sing you all my lovesongs
I'll tell you what it's all about

And I will wander where you wander...

Way back, I was wandering alone,
I was longing for someone
like you, to bring me back home

And I will read you all my poems,
I will sing you all my love songs
I'll tell you what it's all about

And I will show you how to get to heaven
and how we can stay there
you'll never have to do without
solo

And I will read you all my poems,
I will sing you all my lovesongs
I'll tell you what it's all about

And I will show you how to get to heaven
and how we can stay there
you'll never have to do without
And I will wander where you wander...
