

# Trouble, Come Touch The Sky

Love let's just start from here  
reach as far as we can see  
tell them you came to look in my eyes  
saw the morning appear in the skies

(Chorus)  
Come on baby touch the sky

Can't really remember her name  
but I loved them just the same  
we wandered all night  
in the land of dreams  
nobody ever heard me scream

(Chorus, 1st verse, chorus)
