## Trouble, Long Shadows Fall

On the road of winters misery Drifting motionless in pain Enlightened dreamscapes are assured Sad certainty of mine Hallucinations are clearly all around

Long shadows fallen down Long shadows fallen down

Desperation bleeds insanity
Disruptive angels haunt my brain
Appealing mercy of the fire
Dances slow on fire
Hallucinations are clearly all around

Long shadows fallen down Long shadows fallen down

On the road of winters misery Drifting motionless in pain Enlightened dreamscapes are assured Sad certainty of mine Hallucinations are clearly all around

Long shadows fallen down Long shadows fallen down
