

# Trout Fishing In America, I Can Dance

(K. Grimwood/E. Idlet)

I used to have a little problem whenever music played,  
I never went out to the dance floor, always stayed away.  
While everybody else would shake it, I was kind of shy.  
I sat alone all by myself and watched the fun go by.  
I got tired of waiting for my turn.  
I got up to dance.

Now I can dance!

There's really nothing to it, just let your body go.

Shake your arms and kick your legs  
and move around the floor.

It's easy, so simple, to have a real good time.

When everybody sees you dancin', they want to get in line.

Just get up and dance.

You can dance!

I used to have a little problem whenever music played,  
I never went out to the dance floor, always stayed away.  
While everybody else would shake it, I was kind of shy.  
I sat alone all by myself and watched the fun go by.  
Don't just sit there all by yourself, just get up and dance.  
'Cause you can dance!  
I can dance!
