

Troye Sivan, Dance to This (ft. Ariana Grande)

young ambition
say we'll go slow but we never do

Premonition
seeing me spending every night with you

under the kitchen lights
you still like like dynamite
and I wanna end up on you
don't need no place to go
just put on the radio
you know what I wanna do

we can just dance to this
don't take much to start me
we can just dance to this
push up on my body
and you know we've
already seen all of the parties
we can just dance to this

[Ariana:]
dear beloved, bring those 501s a biiit closer
but closer
and dear my lover
do that thing we never do sober
sober

under the kitchen lights
you still like like dynamite
and I wanna end up on you
don't need no place to go
just put on the radio
you know what I wanna do

we can just dance to this
don't take much to start me
we can just dance to this
push up on my body
and you know we've
already seen all of the parties
we can just dance to this

I don't want to sleep tonight
I just want to take the ride
I don't want to sleep tonight
I just want to take the ride, yeah!

we can just dance to this
don't take much to start me
we can just dance to this
push up on my body
and you know we've
already seen all of the parties
we can just dance to this
we can just dance to this
don't take much to start me
we can just dance to this
push up on my body
and you know we've
already seen all of the parties
we can just dance to this
we can just, we can just dance to this
