

True Damage, GIANTS

moving too fast life is moving in slow-mo
I'm a god
better ask if you don't know
homie better put your pride aside
I am a benz
and you're more like a Volvo

your best stuff looks like my worst
synapses fire and burst
got the whole crew whit me
about to deal damage
you know
we ain;t average
ain't gonna say this again
but this is my time
better look in my eyes
I am a genius in disguise
wear my heart on my sleeve
and you forced to oblige to a king in his Prime
everybody get in line
sit back
watch the stars Align
I finesse like my life on the line
was a diamond in the rough and now I shine

ay...
no one can stop us!
they'll try but they won't
ay...
nada nos puiede parar,
oh no

we're wide awake now
our eye are wide open
we're running this world
we keeping it turning
we're living like Giants
yeah Giants!
we're bigger than Giants
yeah Giants!
oh oh oh oh!
