

Trust Company, Closer

I'm closer to say but I'm to afraid
I'll shine on the surface
So leave me alone
And keep me in the shadow
I'm lost but I'm closer

Take what you want just to feel
This pain is real
Can't you see the crime that you've done
It's inside of you, it's a part of you
In you

Now life's far away
Distant and gray
It's cold on the inside
So take what you wanted from me
And keep it cause now I can see
I'm lost but I'm closer

Take what you want just to feel
This pain is real
Can't you see the crime that you've done
It's inside of you, it's a part of you
In you, in you, you, you

I waited here to long
To see what never could have been
I feel I'm choking on
The fear I'm drowning in
And I waited here to long
For you!

Take what you want just to feel
This pain is real
Can't you see the crime that you've done
It's inside of you, it's a part of you
In you
It's inside of you, it's a part of you
It's inside of you, it's a part of you
