Trust Company, Hover

You take me down further inside of me Now I'm fading out I can barely see I hover

To see you leave again it's over And it kills me to watch you descend to the end

Can't think straight
Shutting me out - closing me out
Are you trying - hurting
Taking me out - leaving me out
Keeps me struggling
You're leaving

You take me down further inside of me Now I'm fading out I can barely see I hover

to see you caving in I'm undone And to say it's the last time again It's the end

Can't think straight
Shutting me out - closing me out
Are you trying - hurting
Taking me out - leaving me out
Keeps me struggling
I'm leaving

You take me down further inside of me Now I'm fading out I can barely see I hover

I'm watching you descend I'm hovering instead I'm watching you descend I'm hovering instead

You take me down further inside Now I can see through you

You take me down further inside of me Now I'm fading out I can barely see I hover I hover I hover I hover again
