

# TRUSTcompany, Hover (Piano Version)

to see you leave again...its over  
and it kills me to watch you descend to the end

shutting me out again are you tryin?  
closing me out again are you hurtin?

you take me down further inside of me  
now i'm fading out i can barely see

to see you caving in i'm undone  
and to say its the last time again  
its the end

shutting me out again are you tryin?  
closing me out are you hurtin?

you take me down further inside of me  
now i'm fading out-i can barely see
