

# Truth Brutal, Displacement

no more...  
blind falsity  
tears left to see  
fear left in me  
pain inside my head  
no more...  
corporate casualties  
progress, myths and lies

would you, call upon a book of lies  
blame aside, watch you try and rationalize

push walls to the threshold of pain

genetics unmatched in the inhuman acts of capitalist fucks  
cahsing grants, the majority oblivious to pain and suffering  
greed, payback in the form of black disease

would you, fall from grace, desensitize  
crawl inside socially fed mass genocide

would you, face the truth or capitalize  
falisy, bloodshot cracks in visions eye
