## Truth Hurts, B.S.

Take no offence to this speaking from my own experience Theres a price to pay when you get caught up no telling What you'll get but you can lose the same With no respect never seen the real through all the dark

You have a patient love yes you do And dont believe everything you hear Just let the truth be known push force like rain

First you caught up no things genuine push force like rain So caught up by the hype and nonsense Let the truth not change

I can see straight through clear people heartless & Description among the straight through clear people heartless & Description among the straight through clear people heartless & Description among the straight through clear people heartless & Description among the straight through clear people heartless & Description among the straight through clear people heartless & Description among the straight through clear people heartless & Description among the straight through clear people heartless & Description among the straight through clear people heartless & Description among the straight through clear people heartless & Description among the straight through clear people heartless & Description among the straight through the straight

You have a patient love yes you do And dont believe everything you hear Just let the truth be known push force like rain

First you caught up no things genuine push force like rain So caught up by the hype and nonsense Let the truth not change
