

Tryad, Mesmerize

When there's no place you feel at home
And you think you'd be better off alone

When you think there's no reason to try
And you hate yourself and you wanna die

When you're filled with anxiety
Everyone's your enemy
wanna go out and kill yourself

You're overreacting

Depressed
Because you think you can't do your best

When you write yourself a stupid song
To remind yourself that you forgot

You're overreacting
