

Tryad, Seduction

Can you hear me listen
What do you think you're missing

Can you hear me listen
What do you think you're missing

Shalom

Love

The way that you go down
It's all
Around

Can you hear me listen
What do you think you're missin'

Can you hear me listen
What do you think you're missing

Can you hear me listen
What do you think you're missing

The way that you go down
It's something to touch
