

# Tryad, Seduction

Can you hear me listen  
What do you think you're missing

Can you hear me listen  
What do you think you're missing

Shalom

Love

The way that you go down  
It's all  
Around

Can you hear me listen  
What do you think you're missin'

Can you hear me listen  
What do you think you're missing

Can you hear me listen  
What do you think you're missing

The way that you go down  
It's something to touch
