

Tsunami Bomb, 3 Days And 1000 Nights

You've crossed into our territory
Take caution and care, traps concealed everywhere
We know you're here, we'll take our time
We like to slit throats and it's not such a crime

This is a intrusion
No time for your confusion
You're done for, no escape
Your action just sealed your fate!
Oh no! You're not free to go. Yo Ho!+2

We infiltrate your brain
Control settles in, you can't try to resist
Helpless now, there's no way out
There is no escape you belong to us now.
