

Tuatha De Danann, Battle Song

We're marching on the fields of Moytura
Fighting for the land - We've got on
They have no chance against our swords
Magic in our hands - We'll kill them all

We came from the sky to bring man the wisdom of the times
Guiding by Danu - We shall wonder the land
We have no choice, we must kill these monster(s) of the sea
The ugly Fomorians - and Ballor their King

We have no fear - the battle spirit's in us
Let's sing and show our pride

This bloody battle will stain the time
We are the Danann - The magical ones
They have no chance against our spells
We'll take their land - Kill them all

The drums are humming horns are screaming - dancing over the blood
The blood of the Formorians - the ugly ones
We'll show the beautiful magic of uncountable times
The mountain king's with us - the magic is done

We have no fear the battle spirit's in us
Let's sing our battle song
