

Tuatha De Danann, Behold The Horned King

Behold-behold-behold the horned king
He who came to join the maiden the young king
The land - the land - Hall our precious land
He the young king who comes to bring who comes to bring prosperity
To the land

The land have been sleeping for too much time
While the cold winter reings
So hu Gaddarn will awake and with his powers he shall reign
That's the time - let's us unite - the circle cannot be broken
Their souls will shine - Shine to the sky - Behold the king

Behold-behold-behold the horned king

To the land

The land have been sleeping for too much time while the cold winter reings
