

# Tubes, Slipped My Disco

(Spooner/Steen)

Well the joint was jumpin'  
Maybe I got too high  
And the beat was familiar  
My feet were too sly

I tried to hustle  
I tried to bump  
I was always steppin'  
When it was time to jump

My baby said quit  
I told her I wouldn't  
If she asked me today  
I'd say I couldn't

Slipped my disco--he slipped his disco  
Slipped my disco when I was dancing with you, baby

I begin to wonder  
is it worth the pain  
Get so twisted  
that you wind up lame  
Maybe it's my technique  
or is it my shoes  
Just another white boy  
with the disco blues

Sometimes my body does  
things that my brain don't understand  
I'm not the man I was  
but my feet still think I am

And the doctor's busy  
He's checking me out  
He says I'm crazy  
to jump and shout

I said, one more number Doc,  
just one more tune  
Let me out of this emergency room--and I

Slipped my disco--he slipped his disco  
Slipped my disco when I was dancing with you, baby

I begin to wonder  
is it worth the pain  
Get so twisted  
that you wind up lame  
Maybe it's my technique  
or is it my shoes  
Just another white boy  
with the disco blues
