

# Tune, More

Your hunger grows  
When something gets in sight  
You jump and dig your claws  
Till it becomes your own  
You're gonna get it all  
You're on a roll  
So gather all your might  
Let the poison flow  
And when it gets the core  
Don't ever let it go

Now the glitter's gone  
Stripped to black and white  
And you pray to God  
Saying: Save us tonight  
But you never know  
You've finally realized  
Your dreamed-of world  
Is where you sold your soul  
For gold  
Oh, you dirty, greedy whore  
What a show...

But if you open up your mind  
You'll feel like more  
The body has enough  
It's time to feed the soul  
Well, you finally see  
The world is cold  
With no friends who  
Help you carry on  
So open up your mouth  
And let all go  
And if you look around  
You'll see you're not alone  
There is one thing you should know  
Not all that you fall for  
Cause it glitters  
Is gold

You cast aside the things that money can't buy  
There's no one home but you still wonder why

But if you open up your mind  
You'll feel like more  
The body has enough  
It's time to feed the soul  
Well, you finally see  
The world is cold  
With no friends who  
Help you carry on  
So open up your mouth  
And let all go  
And if you look around  
You'll see you're not alone  
There is one thing you should know  
Not all that you fall for  
Cause it glitters  
Is gold
