

Turbo, LSD(wrersja ang.)

Some things wrong, that's not my world,
I'm on drugs, fall into a trance,
strange shapes come from the clouds,
fantasy.

That does it! No more failures!

Where there's no evil I go.

This is a world like a dream,

Different rules, different god

This is a world

like a dream

brand new days,

better God

This is a world

like a dream

different rules,

different God

Open my mind

Open my soul

And close my door!

Do you know you can live once?

Only once!

Do you know?
