

Turin Brakes, Above The Clouds

One, two, three, four
Up above the clouds, it is always a blue sky
Some will try a trick, but you just look them in the eyes
What will they do, when the money runs dry?
Where will they go, when the jet planes can't fly?

When all is said and done I will love you
When all is said and done I'll still love you

Starring out at the stars, you feel helpless and so small
Nothing but closed down bars, no one helps you when you fall
One day this world will be returning to this prime
We'll all be gone, there'll be no more roads to find

When all is said and done i will love you
When all is said and done i'll still love you

The rain came again,
Cleaning the dream and it always makes me cry, oh my
Something about the rain, it sends memories through my veins
Memories always stain, you can't wash them down the drain
Where will I go when my broken body dies?
And what will I know when i look up to the skies?

When all is said and done will you love me? (x2)

The rain came again, cleaning the dream
And it always makes me cry, oh my
Up above the clouds, it is always a blue sky
