

Turin Brakes, Over And Over

Life isn't always easy
This we know my friends
I thought you knew where to go
But you were following me
So lets get lost in space
I feel this place
I'm stuck in the rat race
It's a lovely day to lose your way
And get stuck in the loop.....

Over and over again, you could never make it stop (x4)

My old bones stroll along
Railway track is oh so long
Stem the tide, the nine to five
Slowly eating me alive
But all night long, carry on
We're stumbling slowly to a lovely day to lose your way
And get stuck in the loop.....

Over and over again, you could never make it stop (x4)
