

# Turin Brakes, Real Life

I woke up lost, along the road  
My body burned by the sun, burned by the sun  
As I defrost beside the fire,  
I contemplate my escape  
Played my mistakes  
Around and around and around

It's just like real life,  
Tastes just like real life  
Feels just like real life on the road.

I'm alive, scream alive,  
My body sprays out a spark  
Sprays out a spark,  
burning a hole in the dark

It's just like real life,  
Tastes just like real life  
Feels just like real life.

My body sprays out a spark,  
Sprays out a spark

Yeah let me burn in the sun  
Burn in the sun ooh

It's just like real life,  
Tastes just like real life  
Feels just like real life  
On the road
