

Turin Brakes, Stalker

I'm in the dark
I'm in the hurricane
I'm in the rain
All over your parade

I act like a friend
I feel like a brand new start
But I will break in
And then I will break your heart

Every single thing you say
I'll record, I'll replay
I'm a shadow just behind
I am with you all of the time
I am with you all of the time

I an a shark
I am a razorblade
And I will destroy
All of the friends you made

So please let me in
'Cause i wanna be your friend
I will cling on
To you until the end

Every single thing you say
I'll record, I'll replay
I'm a shadow just behind
I am with you all of the time

You may think that you are free
But you're not, 'cause your with me
I'm a shadow in that line
I am with you all of the time
I am with you all of the time
I am with you all of the time

Every single thing you say
I'll record, I'll replay
I'm a shadow just behind
I am with you all of the time
You may think that you are free
But you're not, 'cause your with me
I'm a shadow in that line
I am with you all of the time
