

Turin Brakes, Where's My Army?

Where's my army?

I've been dragging my ass across the desert sands

Please sister

I'm not looking for a good time, just hold my hand

So I can shelter from the rain

So I can shelter from the rain

And stand the flash floods to my brain, oh

Where's my army?

I've been dragging my ass across the desert sands

Please sister

I'm not looking for a good time, just hold my hand

So I can shelter from the rain

So I can shelter from the rain

And stand the flash floods to my brain, oh
