Turn Off The Stars, Hours And Days

Wouldn&#039;t let you go down tonight
Wouldn&#039;t leave you hanging on a wire tonight
Oh these ragged hours and ragged days keep me down
Won&#039;t let me get away

I could stay right here just for a while
If I asked you how, could you give a smile
Oh these wicked hours and wicked days keep me down
Won&#039;t let me get away

But you do it to yourself
And it happens everytime
But you won&#039;t go down
You won&#039;t go down

I&#039;ll just stand right here but don&#039;t act suprised
Because I never felt this old my whole life
Oh these endless hours and endless days keep me down
Won&#039;t let me get away

But you do it to yourself
And it happens everytime
But you won&#039;t go down
You won&#039;t go down
