

# Tuuli, I Won't Lie

You never took the time to notice  
I never wanted it this way  
I just don't have the time to argue  
But I got one more thing to say

We're not going anywhere  
You're a cheat and it's not fair  
I know it's not that you don't care  
About me

And I won't lie  
But I'll pretend to like it when you lie to me  
I guess that's just what I'll let you believe

And if we waited here forever  
I wonder if these things would change?  
So many things you don't remember  
I thought you overheard me say

We're not going anywhere  
It's a shame that you don't care  
What will become of you  
When I'm no longer here?

And I won't lie  
But I'll pretend to like it when you lie to me  
I guess that's just what I'll let you believe

And I'm not sad that my heart is breaking  
Maybe it will be for good  
I guess you lied  
I guess that I lied too  
I lied too  
I lied too  
I lied too
