

# Tuuli, Who's The Fool Now

I smash every single star from the sky  
and i, leave all my hopes and dreams behind  
coz it kept raining everyday and i wont hear you when you say  
im long gone and your too far away

who's the fool now x3

when you're good as gold  
and when you're all mine  
i'm the sun you say and im too bright  
you cant bear the glare today  
im standing in the pouring rain  
that way you will never see me cry

who's the fool nowx13
