

Tweaker, Microsize Boy

all I have to say
my monitor displayed
my circuits are away
closed down and afraid

styrofoam and latex to my icy below
soiled laces threshold into your soul

I will decide
no time to hide
but you're not the kind
to keep an open mind
you make me microsize
microsize boy.....

and you never stay
an empty, open bay
and I was on my way
but you don't want to play

just so tired of drinking, I'm shorting out
kaleidescoping pixels, they're crashing down

And I'm left behind
you're no friend of mine
and you're not the kind
that keeps an open mind
you make me microsize
microsize boy.....

and all you had to say
your monitor displayed
my patience wore away
always been afraid.....

file's not worth saving, shut me down!

I will decide
no time to hide
but you're not the kind
to keep an open mind
you make me microsize
microsize boy.....

....boy....

And I'm left behind
you're no friend of mine
and you're not the kind
that keeps an open mind
you make me microsize
make me the microsize boy.....
boy
