

Tweaker, Take Me Alive

return to life
feel what's happening
the seasons
have made me whole
the storm inside
gone with the undertow
your glowing lights make me high

take me alive
don't wake me up
no more time to spend in hiding
take me alive
don't wake me up
no more time to spend in hiding
take me alive
don't wake me up
no more time to spend in hiding
take me alive
don't wake me up
no more time to spend in...

return my love
hear my offering
unreason
misplaced control
the stopless night
dawn with your kiss my love
your glowing eyes light the sun

take me alive
don't wake me up
no more time to spend in hiding
take me alive
don't wake me up
no more time to spend in hiding
take me alive
don't wake me up
no more time to spend in hiding
take me alive
don't wake me up
no more time to spend in...

...turn around, around...I'm letting go...a peace of my soul...
here am I, come warm my bones...
