

# Twelfth Night, Take A Look 11:29

Synthesised, programmed and synchronised  
Detailed, computerised - no room for error  
Specified, labelled and classified  
Free mind has 'paralysed imagination'  
Educate, break down and formulate  
Dictate don't speculate, - don't be a failure  
Parasite, - know, sense, think, read and write  
Translating black and white, hungry for logic  
Stand fast -  
Take a look at yourself  
In a moment realise  
We are thinking today  
Take a look, take a look  
Take control of yourself  
For a moment realise  
We are thinking today  
Today, today, - take a look!  
Doters on the silicon  
Enslaved by self design  
Dependant on the life blood  
And body of their Son  
Each cry for understanding  
Begins and ends at the grave -  
From cradle to grave  
Null and void emotion  
Break free of this system  
Opening eyes finding release  
Each breath of inspiration  
Begins and ends at the grave -  
From cradle to grave  
I'll find a key to lock the door  
I won't let on that I'm afraid  
Heaven, - Heaven I'm scared!  
Take a look at yourself  
In a moment realise  
We are thinking today  
Today, today  
Take control of yourself  
For a moment realise  
You are thinking today  
Today, today, - take a look!  
Synthesise, program and synchronise  
Detail, computerise your own damn/nation  
Magnified these dreams you've kept inside -  
Come alive! Your hand is bitten by your own creation  
Take a look at yourself  
In a moment realise  
We are thinking today  
Today, today  
Take control of yourself  
You're not a victim -  
You're not anything  
Only throwing away today, today -  
Take a look!  
I'm alive -  
I breathe, I feel inside  
Not just a toy  
Not a fault you can override  
I want to be alone  
If I could find a place to hide  
Will you always be there  
In every thought, every word  
Oh you're so damn -  
Clinical, useful and practical

Always fanatical - controlled existence  
Oh we may generate, design and integrate  
But never, - we never simulate human reaction  
Stand fast -  
Take a look at yourself  
In a moment realise  
We are thinking today  
Take a look, take a look  
Take control of yourself  
For a moment realise  
We are thinking today  
Today, today -  
Take a look
