

Twelfth Night, This Is War!

(Andy Sears)

Freedom come freedom go
Hear you cry--"wonder why"--
I see you're scared I feel your touch
And it hurts,--it hurts so much
Run through fire, you run through fire
But you close your eyes,--
Why do you close your eyes!
Sick and tired, primed and wired
This is war
Freedom come, freedom go
Must stay alive, must keep alive
Come the day they'll change your name
Don't turn away, don't take it --
Hush child!
This is war--
Our war--
War hour!
