TWENTY ONE PILOTS, The Hype

[Verse 1] Sometimes I feel cold, even paralyzed My interior world needs to sanitize I've got to step through or I'll dissipate I'll record my step through for my basement tapes

[Chorus]

Nice to know my kind will be on my side I don't believe the hype And you know you're a terrible sight But you'll be just fine Just don't believe the hype

[Verse 2]

Yeah, they might be talking behind your head Your exterior world can step off instead It might take some friends and a warmer shirt But you don't get thick skin without getting burnt

[Chorus]

Nice to know my kind will be on my side I don't believe the hype And you know you're a terrible sight But you'll be just fine Just don't believe the hype (Take me with you)

[Bridge] (We're gonna rely pretty heavily On technology And energy

To cover up the fact that we're only two people But I think we can do it)

No, I don't know which way I'm going But I can hear my way around No, I don't know which way I'm going

But I can hear my way around

No, I don't know which way I'm going But I can hear my way around

No, I don't know which way I'm going

But I can hear my way around But I can hear my way around

[Chorus]

Nice to know my kind will be on my side I don't believe the hype And you know you're a terrible sight But you'll be just fine Just don't believe the hype (Don't believe the hype) Nice to know my kind will be on my side I don't believe the hype And you know you're a terrible sight But you'll be just fine Just don't believe the hype Nice to know my kind will be on my side I don't believe the hype And you know you're a terrible sight But you'll be just fine Just don't believe the hype
