

Twila Paris, I Am Not Afraid Any More

I said I belonged to you
But in a secret room
I kept a secret list
I said anything for you
Anything but this
Anything but this
You knew it all along
You knew it very well
You knew the sturdy walls I hid behind were nothing but a prison cell

(chorus)
I am not afraid any more
You have opened all the windows
Opened all the doors
I am not afraid any more
I felt the wind of freedom like I never did before
But I have spent the hours dancing on the floor
I am not afraid any more

You have always been the same
I ran away from you
I ran away from you
Every time you called my name
I tried to hide the truth
I tried to hide the truth
You knew it all along
You knew it very well
You knew the more I covered up my heart
The more I didn't know myself

(chorus)

No room for fear
No room
No room
No room for fear
perfect love is living here

(chorus)
(fade out)
