

# Twila Paris, Once In A Life

Once in a lifetime we come to this place

We are given grace

We are given grace

Here one decision is made to lean in or away

Once in a lifetime this choice is in our hands

Here at this crossroads so briefly we stand

Once in a lifetime this one given heartbeat goes by

Once in a life

Once in a lifetime we come to this day

We cannot come back

We cannot come back

We have His Promise to give all the wisdom we lack

Once in a lifetime this choice is in our hands

Holding one moment between God and man

Once in a lifetime this one given heartbeat goes by

Once in a life

Met and surrounded by mercy so real

so real we can taste it

Over and over we choose to drink in

this love or to waste it

Once in a lifetime at this very place

We are given grace

We are given grace

No small decision is made to resist or obey

Once in a lifetime this choice in our hands

Once in a lifetime and never again

Once in a lifetime this one given heartbeat goes by

Once in a life
