

Twin-A, Disappear

I want to fall off the face of the earth
And I want to wake up tomorrow morning and never

Why can't I be like you
Too perfect and untouchable
Why can't I be like you
Never feel a thing

All of your reasons they fall to the floor
Tell me the truth I will tell you one more
Oh I can't wait when we get out of here
Oh I can't wait I can't wait to disappear

You walk around all day with your head up in the clouds
And I fight gravity with each step
I keep on falling down

Why can't I be like you
So perfect and untouchable
Why can't I be like you
Never feel a thing

All of your reasons they fall to the floor
Tell me the truth and I'll tell you one more
God would I give when we just get out of here
Oh I can't wait I can't wait to disappear

You can't see me
You can't hear me
But you can feel me
