

Twin-A, Goodnight Satellite

Goodnight satellite
I'm signing off for now.

Goodnight satellite
I'm losing you...
I'm slowly breaking down.
Ending the transmission
What's your new location?
Are you even out there-
Tonight?

Goodnight satellite
There's trouble on the line.
Goodnight satellite
Been getting interference
All of the time.
Ending the transmission
What's your new location?
Are you even out there?
What's your destination?
What's my fascination?
Are you even out there?
Cause I, I will be waiting
For your signal on my screen.
Just send up one more signal and
I'll come down.

Are you even out there?
Is anybody out there?
Is anybody out
Anybody out
Is anybody out there?
Tonight.....at all?

Goodnight satellite-
I'm signing off for now.
