

Twin-A, Something Good

Settle down this past December
All that I remember was that dress
You wore

You said it'd be all right
I knew it'd be all right
I could not ignore

I can't wait to get inside of you
I can't wait to get inside of you

Lately I think you and I've got something good
Lately I think you and I've got something good
Lately I think you and I've got something good
Going on
Something's going on

Settle down this past December
All that I remember is that dress
I tore

You said it'd be all right
I knew it'd be all right
I could not ignore

Lately I think you and I've got something good
Lately I think you and I've got something good
Lately I think you and I've got something good
Going on
Something's going on

Something's going on
Something's going on
Something's going on
Something's going on
