

# Twin-A, Theme Song

Almost slipped right through the cracks  
So fixated on the things I lack  
That knife in my spine  
Been twisted so tight  
It's not just a scratch on my back

Burning bridges sometimes  
Push our way to the front of the line  
Something is there  
Forget what you heard  
Soon you will suck a surprise

Oh yea  
Listen up  
Shut your mouth  
Pay attention now  
I can shout louder than you  
I can shout louder than you  
I can shout louder than you

Pack it up and shake it in  
No regrets from this point here on in  
Let's get in the van  
Let's do what we can  
Run into town and then level it down  
Cause we can  
Cause we can  
Cause we can
