

Twin Admiral, Sun & Moon

when they stare out at the stars
like satellites- we'll always be there
i am the sun- you are the moon
we are the hope they'll always see there

(chorus)

it's true
i burn for you
this time each day
we meet this way
to share the things we've got to say

when they go to sleep at night
like reveries we'll always be there
our souls entwine and share the dream
we both believe we can fly anywhere

(repeat chorus)

it's true
i burn for you
this time each day
we sleep this way
to share the things we've go to say
