

Twista & The Speedknot Mobstaz, In Your World

(Chorus)

(Let me in your world)

I rock your body all night

Sip on some (?) drink to make you feel right

Lay on the waterbed and hold you real tight

I be makin' you feel nice if you let me in your world

I can rock your body all night

Sip on some (?) drink to make you feel right

Lay on the waterbed and hold you real tight

I be makin' you feel nice if you let me in your world

(Let me in your world)

(Twista)

Hey love, what's up, come give me a kiss

Have you ever seen a po pimp with eyes as pretty as this

And still be the rawest, spittin' flawless game while I get my G's

I hit my B's, pullin' up on fees I bet I get piece

'Cause I'm impressin', lovin', when I'm kissin' and huggin'

All into good rushin', touchin', better roll when I flush 'em

I'm causin' concussion, sportin' pellet, come here baby

My way will change, I used to kinda rugged my day

Let's dance, while we get our groove on I get known

If it's on, then Lexus she gon' get home

First get bucked up and sip on

G on the room and drink po wine up in the whirlpool

Don't leave my comb and pearl too

Leavin', let the girl cool my world, ooh

I like to get down, straight up you're freaky

You wanna meet me, just beep me, take the (?) and weakling

Drop the top and leave haters wishin' the (..?..)

Let's keep it a hood thang, you get busy on wool grain

I treat you precious as diamond rings, so don't cut me up

I start the fussin', I'ma get the bustin', now no thang, I gotta give it up

'Cause all your love can make the hardest thug cry like a dove

Pull my mink over your shoulders when we leave out the club

Ain't no need to knock a con, I'm feelin' like Chaka Kahn

She the bomb like Lebanon, still fine with no Revlon

Just let the Don inside, I promise pleasure and sweat

I guarantee you ain't gon' be no regrets

If you just let me get it wet

(Chorus)

(Christopher Williams)

Baby I'm fine, want you to be on my pager

I wanna know you, we can kick it like players

(..?..) make me really want you

Let me in your world

How can a man leave a woman like you're lonely

But still some phonies, call me when you need me

Sit down with my homies, pull up in my Lexus

Let me in your world

(Liffy Stokes)

I need love, it's off the hizze, think you can please me

Don't hurt me, take it easy girl, we on the E-Way

You know you met me when I crashed the bar

And why'd you kissin' on my neck, I'm 'bout to crash the car

So pass the 'la, relax baby it ain't far

Since you started askin' me questions on gossip about stars

Girl you better be on script on who you with

She's been forcin' Liffy Stokes from the mobsta click

(Mayz)

I'm chillin' at the click, with numbs getting numb, I bumps
Tryin' to find a cutie to kickin' with, watch the risin' sun
Here she comes with them big legs, no fat on the back
What's up shorty, can we kick it tonight and choke on the sack
Come see as I foreplay, freaky at this slow-ass track
Big and black, had attention ready to dig in that
So what we just met, that don't mean I won't give you respect
I just fight the temptation to get your body real wet

(Christopher Williams)

Ahh, keep givin' them hand claps, baby
Watch them speakers be harmed
And the bass be soft, ooh
Ahh, keep givin' them hand claps, baby
Watch them speakers be harmed
And the bass be soft, ooh

(Twista)

On my elevator you can feel our love rise to the top
'Cause on the way up to my condo, your ears pop
When I hit the lock I'm a villain, the mobstas make the killin'
As we lay on my waterbed with the mirrors on the ceiling
The wall too, got friends that's all true, I call Cru
Tryin' to fall too, I got tall brew, it's all you
Or like I be, let's shoot up to the club, like two tattoos
VIP, who gets who, no dancing with two left shoes
Do that fool, do that, do that, who that creeps on my hood
Do I see my nigs thuggin' but, dawg, y'all lookin' good
Ballers please, it's a straight playas party, can't f**k with these
Champagne and Henessies for my G's and stuck a piece, and uh
Haters please, no bustin' we up in place
Put 'em in the trunk, the flame
When I'm tryin' to get up with "what's her name"
The precious tonight I met, let's ride, I feel this like a set
While you're dancing, I'ma kiss off the sweat
That's how you let me get it wet

(Chorus)

(Christopher Williams)

Baby I'm fine, want you to be on my pager
I wanna know you, we can kick it like players
(..?..) make me really want you
Let me in your world
How can a man leave a woman like you're lonely
But still some phonies, call me when you need me
Sit down with my homies, pull up in my Lexus
Let me in your world
Let me in your world
