

Twisted Method, Mannequin

Pain, I'm in fucking pain!
Played, I've been fuckin played.
Pain, I'm in fucking pain!
Changed, yeah you haven't changed.
Yeah, you're still the same.
You haven't fucking changed.

Quit coming around like you act hard.
You sick bitch, Oh my GOD!
I know he's coming for you.
I feel this it's way in my mind.
I find I can't hide.
You fuckin bitch! Just get away from me.
And you know everything'll be OK.
Oh, I feel bitter inside knowing that I just cannot get away.
From this pain that you're causing me.
I could never love someone who's so fake.

We do it just like this

You say you know all about me.
You know the inside of my world.
Then why the fuck do I feel so cold.

Chorus

We do it just like this!

You say you know all about me.
You know the inside of my world.
Then why the fuck do I feel so cold.

I see right through your plastic face.
Which I love to degrade.
I know he's cumming on you
I can't wait until you fucking bleed.
Again and again! Yeah you fucking bitch.
Just get away from me.
And you know everything 'll be OK.
Oh, I feel bitter inside knowing that I just cannot get away.
From this pain that you're causing me.
I hope he beats your guts until you bleed!
Bleed, Bleed, BLEED!

Chorus

Get it get it
Get it get it
